**Marcolin approves the quarterly report as of 30<sup>th</sup> September 2004: consolidated turnover increased by 12%.**

The positive trend of the current year is confirmed.

*Longarone, 11<sup>th</sup> November 2004* – Marcolin S.p.A.'s Board of Directors, held today at the Longarone headquarters, approved the Group's quarterly report as of 30<sup>th</sup> September 2004.

In the first nine months of the year the consolidated turnover was around 128.1 million Euro, an increase of around 12% compared to the same period last year; with exchange rates left unchanged, the Group's sales would have increased by around 15%.

The turnover analysis by geographical area highlights, in particular, the significant increase in domestic sales (approximately +23%), European sales (approximately +14%) and the excellent growth of sales in other worldwide markets (+39%).

The proceeds of sales were positive, especially from the French (+43%), Spanish (+20%) and German (+11%) branches.

The overall increase in turnover was helped, namely, by the Roberto Cavalli Eyewear (approximately +64%), Dolce & Gabbana Eyewear (approximately +32%) and Miss Sixty Glasses (+28%) lines. It is also worth noting, with reference to the American branch, that the turnover of the Kenneth Cole lines in the Department Stores sector performed satisfactorily; the eyewear sector will be marketed starting from January 2005.

EBITDA is around 11% of turnover (approximately 7% as of 30<sup>th</sup> September 2003) and equals about 13.5 million Euro.

EBIT is around 6% of turnover (approximately 1% as of 30<sup>th</sup> September 2003) and equals about 7.5 million Euro.

The Group's profits before taxes as of 30<sup>th</sup> September 2004 were around 5 million Euro.

With reference to the Marcolin's USA branch, it is worth noting that margins improved also due to the positive effects of the restructuring plan which was implemented last year - its guidelines are now complied with in substance. The reduction of proceeds from the USA branch is mainly due to the course of the Euro/USD exchange ratio; indeed, exchange rates being equal, the sales would have increased around 8%.

The Group's net financial standing - equal to around 40.9 million Euro - improved significantly both compared to 30<sup>th</sup> September 2003 (approximately 6 million Euro) and compared to 31<sup>st</sup> December 2003 (approximately 3 million Euro); there is an improvement in the debt/equity ratio, too, which on 30<sup>th</sup> September 2004 equals 0.69 compared to 0.82 as of 31<sup>st</sup> December 2003.

Maurizio Marcolin, the Group's Style & Licensing CEO, commented following the Board's meeting: *"The company's Management, despite acknowledging the failure to renew the licensing agreement with Dolce & Gabbana dating from 1<sup>st</sup> January 2006, confirms their confidence in the likelihood to strengthen the growth of portfolio brands and, at the same time, reaffirms having started negotiations for the acquisition of new licenses"*.

Finally, it is worth stressing that the positive results for this portion of the year were confirmed by the satisfactory feedback received by the new collections shown at Silmo, a proof of the ability to make original and different collections, namely for the fashion segment.

The Marcolin Group is a leading company in the production and sale of prescription and sun glasses frames. It can rely on over 1,100 employees within its 4 global plants and 14 global branches. Its products portfolio includes: Dolce & Gabbana Eyewear, D&G Dolce & Gabbana Eyewear, Roberto Cavalli Eyewear, Costume National Eyewear, Montblanc Eyewear, Replay Eyes, Miss Sixty Glasses, Timberland, Mossimo Vision, Cover Girl Eyewear, Kenneth Cole, NBA Eyewear, The North Face Eyequipment. The Group also produces and sells a wide range of own brands including Marcolin and C  b   (ski goggles and sports glasses).
